

Doomstar Unit Guide

Distances in board tiles, 33 across. Range is measured hull to hull.

The Doomstar

Charge: at the end of your turn, each star held by a Guard, Lancer, Prism or Nova adds 1 charge.

Fire: at 3 charge, one of those ships inside the Doomstar fires instead of attacking: 5 damage to the enemy Command.

Contest: an enemy ship at close range, Scouts included, stops a star from charging. Gunners can still fire.
